

WONDER TOGETHER • 05

Can you stop a sound?

One bowl. One gentle touch.
Listen with Gina and Ollie.

01 / 07

GUESS BEFORE YOU SWIPE

What will a touch do?

Ollie is ready to tap the bowl.
Will touching it change the ring?

Pause. Let your child guess.

FIRST, LISTEN

Tap. Listen.

One gentle tap.
The bowl rings on.

Gina listens without touching.

NOW, CHANGE ONE THING

Touch. Quiet.

Gina touches the bowl.
Its ring fades faster.

Same bowl. Same gentle tap.

THE PART TO REMEMBER

A tiny wobble. A sound.

The bowl vibrates: it moves quickly back and forth.

VIBRATION

QUIETER

Movement shown larger.

Touch quiets the vibration—and the ring.

TRY IT TOGETHER

Tap, touch... then compare.

Gently tap an empty metal bowl.
Listen. Tap again just as gently.
This time, touch its outside.

Empty metal bowl + wooden spoon

1

TAP + LISTEN

2

TAP + TOUCH

Ask: "Which ring lasted longer?"

With an adult. Set the bowl on a stable
surface. Keep it away from ears.

KEEP THE WONDER GOING

Little sounds. Big curiosity.

Read *Gina and the Quiet Sounds*
together.

Parents: explore the story in Kiddos Books.
