

GINA & OLLIE EXPLORE

# A BUTTERFLY'S LIFE CYCLE

Four stages. One amazing change.

1

## EGG

A butterfly lays an egg on a leaf.

2

## CATERPILLAR

The caterpillar hatches, eats and grows.

4

## BUTTERFLY

The adult can lay eggs.  
The cycle begins again.

3

## CHRYSALIS

Inside the pupa,  
its body changes.

### TRACE THE CHANGE

Start at the egg. What comes next?

Stages are enlarged to help us see.
