

GINA & OLLIE EXPLORE

A BUTTERFLY'S LIFE CYCLE

Four stages. One amazing change.

1 EGG
A butterfly lays an egg on a leaf.

2 CATERPILLAR
The caterpillar hatches, eats and grows.

3 CHRYSALIS
Inside the pupa, its body changes.

4 BUTTERFLY
The adult can lay eggs.
The cycle begins again.

TRACE THE CHANGE
Start at the egg. What comes next?
Stages are enlarged to help us see.
